

## VOLUME 78 • SUBJECT INDEX

- 677→**CT mutation**, 677→CT mutation on the methylenetetrahydrofolate reductase gene is not a risk factor for neural tube defects in Turkey: *letter*, F235
- abdominal tumours**, Preclinical diagnosis of abdominal tumours by ultrasound examination: *letter*, 96
- ABO incompatibility**, Hydrops fetalis due to ABO incompatibility, F220
- abuse**, Abuse or metabolic disorder?: *letter*, 399
- accident and emergency departments**, Developing injury surveillance in accident and emergency departments: *annotation*, 108
- accidents**, Epidemiology of head injury: *annotation*, 403
- aciclovir**, Persistence of protective immunity after postexposure prophylaxis of varicella with oral aciclovir in the family setting, 61  
Susceptibilities to aciclovir in viral isolates from children with varicella: *letter*, 95
- adhesion molecules**, Soluble L-selectin concentration in bronchoalveolar lavage fluid obtained from infants who develop chronic lung disease of prematurity, F143
- adiposity rebound**, Obesity in 21-hydroxylase deficient patients, 261  
Socioeconomic status and changes in body mass from 3 to 5 years, 477
- adolescent health**, Adolescent health services: *letter*, 195
- adoption**, Precocious puberty in girls adopted from developing countries, 152
- adrenal insufficiency**, Rectal hydrocortisone during stress in patients with adrenal insufficiency, 544
- adversity**, Social adversities and anxiety disorders in the Gaza Strip, 439
- afebrile seizures**, Significance of the EEG after the first afebrile seizure: *personal practice*, 575
- albumin**, Central-peripheral temperature difference, blood pressure, and arginine vasopressin in preterm neonates undergoing volume expansion, F43
- alcohol**, Alcohol, pregnancy and the Holy Bible: *letter*, F158
- Alexander Gordon**, Dr Alexander Gordon (1752-99) and contagious puerperal fever: *perinatal lesson*, F232
- allergy**, Colic, wheeze, croup, allergy, and asthma: *letter*, 195  
Molecular biology and genetics of allergy and asthma: *current topic*, 488
- allo-immunisation**, Consequences for fetus and neonate of maternal red cell allo-immunisation, F62
- amblyopia**, Evidence-based dilemmas in pre-school vision screening: *annotation*, 406
- ambulatory paediatrics**, Implementing a children's day assessment unit in a district general hospital: *letter*, 500
- amino acids**, Modulation by magnesium of N-methyl-D-aspartate receptors in developing human brain, F116
- aminoglycosides**, Efficacy, tolerance, and pharmacokinetics of once daily tobramycin for pseudomonas exacerbations in cystic fibrosis, 536
- anaesthesia**, Sedation for invasive procedures in paediatrics: *letter*, 501
- analgesic**, Twelve cases of analgesic headache, 555
- anion gap**, Lactate and anion gap in asphyxiated neonates: *letter*, F80
- anorchia**, Oral testosterone undecanoate for the induction of puberty in anorchid boys: *letter*, 397
- antenatal intervention**, Anti-D prophylaxis in 1997: The Edinburgh Consensus Statement: *annotation*, F161
- antenatal onset**, Antenatal onset of haemorrhagic and/or ischaemic lesions in preterm infants: prevalence and associated obstetric variables, F51
- antenatal screening**, Influence of five years of antenatal screening on the paediatric cystic fibrosis population in one region, 345
- anthropometry**, Nutritional impact of antipseudomonas intravenous antibiotic courses in cystic fibrosis: *letter*, 194
- antibiotics**, Efficacy, tolerance, and pharmacokinetics of once daily tobramycin for pseudomonas exacerbations in cystic fibrosis, 536  
Nutritional impact of antipseudomonas intravenous antibiotic courses in cystic fibrosis: *letter*, 194
- anticonvulsants**, Neonatal seizures: *current topic*, F70
- anti-D prophylaxis**, Anti-D prophylaxis in 1997: The Edinburgh Consensus Statement: *annotation*, F161
- antidiuretic hormone**, Hyponatraemia in the newborn: *annotation*, F81
- antiendothelial cell antibody**, Soluble thrombomodulin and antibodies to bovine glomerular endothelial cells in patients with Henoch-Schönlein purpura, 240
- antigen detection**, Preliminary clinical evaluation of meningococcal disease and bacterial meningitis by ultrasonic enhancement, 58
- antimicrobial resistance**, Quinupristin/dalfopristin in neonatal *Enterococcus faecium* meningitis: *letter*, F235
- antioxidant activity**, Antioxidant activity, packed cell transfusions, and outcome in premature infants, F214
- antiplatelet antibodies**, Thrombocytopenic purpura as adverse reaction to recombinant hepatitis B vaccine, 273
- anxiety**, Social adversities and anxiety disorders in the Gaza Strip, 439
- Archivist**, Coagulation tests in inflicted head injury, 559  
Ethics, emotions, and meningococcaemia, 452  
Good genes, bad mutations, and marrow cells, 248  
Low birthweight and vision, 483  
Müllerian inhibiting substance, 339  
Succinic semialdehyde dehydrogenase deficiency, 32  
The endothelium in sickle cell disease, 561
- Argentina**, A countrywide programme of continuing professional development in Argentina: *medical education*, 562
- arginine vasopressin**, Does positive pressure ventilation increase arginine vasopressin in preterm neonates?, F38
- arterial catheter**, Use of pulse oximetry for blood pressure measurement after cardiac surgery, 457
- arthritis**, Arthritis as a presenting feature of non-Hodgkin's lymphoma, 367
- Asian children**, Iron status of Asian children aged 2 years living in England, 420
- assisted ventilation**, Does positive pressure ventilation increase arginine vasopressin in preterm neonates?, F38
- asthma**, Asthma—time for a change of name?: *letter*, 195  
Asthma—time for a change of name?: *letter*, 395  
Colic, wheeze, croup, allergy, and asthma: *letter*, 195  
Duration of growth suppressive effects of regular inhaled corticosteroids, 172  
Molecular biology and genetics of allergy and asthma: *current topic*, 488  
"Can I have a letter for the housing, doctor?": *annotation*, 505  
Preventable factors in hospital admissions for asthma, 143  
Serum eosinophilic cationic protein may predict clinical course of wheezing in young children, 448  
Sleep and psychological disturbance in nocturnal asthma, 413
- ataxia**, Diagnosing Friedreich's ataxia: *annotation*, 204
- atopic eczema**, Gastrointestinal symptoms in atopic eczema, 230
- atrial septal defect**, Congenital cardiac anomalies with vein of Galen malformations in infants, 548
- AT:RVET(c) ratio**, Pulmonary artery pressure: early predictor of chronic lung disease in preterm infants, F20
- bacterial contamination**, Reducing bacterial contamination of enteral feeds, 166
- bacterial infection**, Diagnostic tests for bacterial infection from birth to 90 days—a systematic review, F92  
Molecular basis of virulence: *annotation*, 197
- Bartonella henselae**, Cat scratch disease in Greece, 64
- Beckwith-Wiedemann syndrome**, Outcome of prenatally diagnosed anterior abdominal wall defects, F209
- behaviour**, Psychological development of prematurely born children: *current topic*, 567
- benign intracranial hypertension**, Diagnosis and management of benign intracranial hypertension: *personal practice*, 89
- bioelectrical impedance**, Nutritional impact of antipseudomonas intravenous antibiotic courses in cystic fibrosis: *letter*, 194
- bioelectrical impedance analysis**, Estimating total body water in neonates: *letter*, F159
- birth asphyxia**, Complement and contact activation in term neonates after fetal acidosis, F125
- birth control**, Thomas Malthus (1766-1834): population growth and birth control: *perinatal lesson*, F76
- black Africans**, Hydrops fetalis due to ABO incompatibility, F220
- blindness**, Increased survival and deteriorating developmental outcome in 23 to 25 week old gestation infants, 1990-4 compared with 1984-9, F99
- blood transfusions**, Antioxidant activity, packed cell transfusions, and outcome in premature infants, F214
- body mass index**, Obesity in 21-hydroxylase deficient patients, 261
- bolus tube feeding**, Effects of bolus tube feeding on cerebral blood flow velocity in neonates: *letter*, F78
- bone mass**, Determinants of axial and peripheral bone mass in Chinese adolescents, 524
- bone mineral content**, Whole body bone mineral content in healthy children and adolescents: *letter*, 396
- brain tissue**, Modulation by magnesium of N-methyl-D-aspartate receptors in developing human brain, F116
- bronchoalveolar lavage**, Soluble L-selectin concentration in bronchoalveolar lavage fluid obtained from infants who develop chronic lung disease of prematurity, F143
- bronchopulmonary disease**, Antioxidant activity, packed cell transfusions, and outcome in premature infants, F214
- C5a receptors**, Reduced expression of C5a receptors on neutrophils from cord blood, F129
- caffeine**, Heavy caffeine intake in pregnancy and sudden infant death syndrome, 9
- cancer**, Development and evaluation of an information booklet for adult survivors of cancer in childhood, 340

- cancer predisposition**, DNA repair disorders: *review*, 178
- capsule substance**, Impaired phagocytosis and opsonisation towards group B streptococci in preterm neonates, F46
- carbon dioxide**, Mechanical model testing of rebreathing potential in infant bedding materials, 323
- cardiac rhabdomyoma**, Tuberous sclerosis complex and Wolff-Parkinson-White syndrome, 159
- cardiac sequelae**, Cardiac sequelae of Kawasaki disease among recurrent cases, 163
- $\beta$ -carotene**, Serum vitamin A and  $\beta$ -carotene concentrations and renal scarring in urinary tract infections, 271
- cat scratch disease**, Cat scratch disease in Greece, 64
- CD4+ lymphocytopenia**, Hereditary CD4+ T lymphocytopenia, 371
- cell mediated immunity**, Hyporesponsiveness to intradermal administration of hepatitis B vaccine in insulin dependent diabetes mellitus, 54
- central peripheral temperature**, Central-peripheral temperature difference, blood pressure, and arginine vasopressin in preterm neonates undergoing volume expansion, F43
- central venous catheters**, Pressures used to flush central venous catheters: *letter*, F234
- cerebral blood flow**, Cerebral blood flow increases over the first three days of life in extremely preterm neonates, F33
- cerebral blood velocity**, Effects of bolus tube feeding on cerebral blood flow velocity in neonates: *letter*, F78
- cerebral haemodynamics**, Cerebral blood flow increases over the first three days of life in extremely preterm neonates, F33
- cerebral palsy**, Antenatal onset of haemorrhagic and/or ischaemic lesions in preterm infants: prevalence and associated obstetric variables, F51
- Very low birthweight boys at the age of 19, F171
- cerebrospinal fluid**, Antibodies to varicella zoster virus in the cerebrospinal fluid of neonates with seizures, F57
- Predominant enteroviral serotypes causing meningitis, 373
- Charcot-Marie-Tooth disease**, Genetic aspects of Charcot-Marie-Tooth disease: *annotation*, 296
- chemiluminescence**, Impaired phagocytosis and opsonisation towards group B streptococci in preterm neonates, F46
- chemoprophylaxis**, Rifampicin and isoniazid prophylactic chemotherapy for tuberculosis, 169
- chemotaxis**, Reduced expression of C5a receptors on neutrophils from cord blood, F129
- child abuse**, Procedures, placement, and risks of further abuse after Munchausen syndrome by proxy, non-accidental poisoning, and non-accidental suffocation, 217
- child car restraints**, Car restraints and seating position for prevention of motor vehicle injuries in Greece, 335
- child soldiers**, War and children: *current topic*, 72
- cholesterol**, Disorders of cholesterol biosynthesis: *current topic*, 185
- chromosomal aberrations**, Chromosome aberrations in coeliac and non-coeliac enteropathies, 466
- chromosome breakage**, DNA repair disorders: *review*, 178
- Oesophageal atresia, VACTERL association: Fanconi's anaemia related spectrum of anomalies, 375
- chronic enteropathy**, Chromosome aberrations in coeliac and non-coeliac enteropathies, 466
- chronic lung disease**, Cardiac effects of short course dexamethasone in preterm infants, F133
- Chronic idiopathic bronchiolitis of infancy: *letter*, F578
- Hyponatremia in the newborn: *annotation*, F81
- Prediction of individual response to postnatal dexamethasone in ventilator dependent preterm infants, F199
- Pulmonary artery pressure: early predictor of chronic lung disease in preterm infants, F20
- Randomised trial of erythromycin on the development of chronic lung disease in preterm infants, F10
- chronic lung disease of prematurity**, Soluble L-selectin concentration in bronchoalveolar lavage fluid obtained from infants who develop chronic lung disease of prematurity, F143
- chronic renal failure**, Growth in renal failure: a longitudinal study of emotional and behavioural changes during trials of growth hormone treatment, 222
- chronic thrombocytopenia**, Management of severe chronic thrombocytopenia in von Willebrand's disease type 2B, 257
- circulatory arrest**, Cerebral oxygenation during cardiopulmonary bypass, 26
- classification**, Kawasaki disease in Australia, 1993-95, 33
- classifications of neonatal care**, Limited comparability of classifications of levels of neonatal care in UK units, F179
- clinical trials**, Licensing of medicines: *annotation*, 402
- coarctation of the aorta**, Congenital cardiac anomalies with vein of Galen malformations in infants, 548
- cobalamin**, Neurological outcome of methylmalonic acidemia, 508
- coeliac disease**, Chromosome aberrations in coeliac and non-coeliac enteropathies, 466
- colectomy**, Juvenile polyposis in a tropical country, 264
- colic**, Colic, wheeze, croup, allergy, and asthma: *letter*, 195
- collagen type II**, Deficiency of laryngeal collagen type II in an infant with respiratory problems, 557
- colloid**, Pump up the volume? The routine early use of colloid in very preterm infants: *annotation*, F163
- common variable immunodeficiency**, Hereditary CD4+ T lymphocytopenia, 371
- community health clinics**, Universal hearing screening using transient otoacoustic emissions in a community health clinic, 249
- complement activation**, Complement and contact activation in term neonates after fetal acidosis, F125
- congenital adrenal hyperplasia**, Obesity in 21-hydroxylase deficient patients, 261
- congenital central hypoventilation syndrome**, Congenital central hypoventilation syndrome and Hirschsprung's disease, 316
- congenital diaphragmatic hernia**, Effect of dexamethasone on endothelial nitric oxide synthase in experimental congenital diaphragmatic hernia, F204
- Pulmonary function, exercise performance, and growth in survivors of congenital diaphragmatic hernia, 137
- congenital heart disease**, Congenital cardiac anomalies with vein of Galen malformations in infants, 548
- Echocardiography on the neonatal unit: a job for the neonatologist or the cardiologist?: *annotation*, 401
- congenital infection**, Antibodies to varicella zoster virus in the cerebrospinal fluid of neonates with seizures, F57
- congenital neoplasm**, Congenital primitive neuroectodermal tumour presenting as obstructed labour, F222
- contact activation**, Complement and contact activation in term neonates after fetal acidosis, F125
- continuing professional development**, A countrywide programme of continuing professional development in Argentina: *medical education*, 562
- conventional ventilation**, Stress response and mode of ventilation in preterm infants, F195
- convulsions**, Antibodies to varicella zoster virus in the cerebrospinal fluid of neonates with seizures, F57
- Coombs positive giant cell hepatitis**, Coombs positive giant cell hepatitis—a new feature of Evans' syndrome: *letter*, 397
- corticosteroids**, Duration of growth suppressive effects of regular inhaled corticosteroids, 172
- CRIB score**, Increased survival and deteriorating developmental outcome in 23 to 25 week old gestation infants, 1990-4 compared with 1984-9, F99
- Predicting outcome in very low birthweight infants using an objective measure of illness severity and cranial ultrasound scanning, F175
- croup**, Colic, wheeze, croup, allergy, and asthma: *letter*, 195
- cystic fibrosis**, Confidential inquiry into families with two siblings with cystic fibrosis: *letter*, 578
- Cystic fibrosis in Down's syndrome—diagnostic pitfalls and implications for the clinician: *letter*, 194
- Efficacy, tolerance, and pharmacokinetics of once daily tobramycin for pseudomonas exacerbations in cystic fibrosis, 536
- Gastro-oesophageal reflux in infants under 6 months with cystic fibrosis, 44
- High serum immunoreactive trypsin not caused by cystic fibrosis: *letter*, F78
- Influence of five years of antenatal screening on the paediatric cystic fibrosis population in one region, 345
- Maintenance of growth in cystic fibrosis despite reduction in pancreatic enzyme supplementation, 377
- Nitric oxide metabolites in cystic fibrosis lung disease, 49
- Nutritional impact of antipseudomonas intravenous antibiotic courses in cystic fibrosis: *letter*, 194
- Relation between dietary intake and nutritional status in cystic fibrosis, 443
- Urinary N-acetyl- $\beta$ -D-glucosaminidase activity in patients with cystic fibrosis on long term gentamicin inhalation, 540
- cystography**, Randomised trial of suprapubic puncture versus urethral catheterisation for cystography: *letter*, 95
- cytokine cascade**, Is some white matter damage in preterm neonates induced by a human pestivirus?: *hypothesis*, F230
- cytokines**, Randomised trial of erythromycin on the development of chronic lung disease in preterm infants, F10
- day assessment unit**, Implementing a children's day assessment unit in a district general hospital: *letter*, 500
- DDAVP**, Management of severe chronic thrombocytopenia in von Willebrand's disease type 2B, 257
- deafness**, Outcome of prenatally diagnosed anterior abdominal wall defects, F209
- deficiency**, Enteral yeast-selenium supplementation in preterm infants, F225
- deformation**, Deformation of the palate in preterm infants, F29
- dehydration**, Serum bicarbonate and dehydration severity in gastroenteritis, 70
- delivered volume**, Volume delivery during high frequency oscillation, F148
- dental disease**, Dental health in children with cancer, 560
- dental treatment**, Dental health in children with cancer, 560
- dependency scales**, Limited comparability of classifications of levels of neonatal care in UK units, F179

- deprivation**, Social adversities and anxiety disorders in the Gaza Strip, 439
- developing countries**, Precocious puberty in girls adopted from developing countries, 152
- Teaching paediatrics for the developing world: *medical education*, 484
- dexamethasone**, Cardiac effects of short course dexamethasone in preterm infants, F133
- Prediction of individual response to postnatal dexamethasone in ventilator dependent preterm infants, F199
- dexamethasone phosphate**, In vitro effect of dexamethasone phosphate on haematopoietic progenitor cells in preterm infants, F67
- diabetes**, Advances in childhood onset diabetes: *review*, 391
- diabetes mellitus**, Mortality and diabetes from a population based register in Yorkshire 1978-93, 435
- diagnosis**, Preliminary clinical evaluation of meningococcal disease and bacterial meningitis by ultrasonic enhancement, 58
- diagnostic imaging**, Congenital primitive neuroectodermal tumour presenting as obstructed labour, F222
- diagnostic tests**, Diagnostic tests for bacterial infection from birth to 90 days—a systematic review, F92
- diarrhoea**, Gastrointestinal problems in the immunosuppressed patient: *annotation*, 5
- dietary management**, Relation between dietary intake and nutritional status in cystic fibrosis, 443
- differential diagnosis**, Growing interest in overgrowth: *annotation*, 200
- disability**, Outcome of resuscitation following unexpected apparent stillbirth, F112
- Survey of UK computerised special needs registers, 312
- disease models**, Advances in haemolytic uraemic syndrome: *review*, 190
- distraction testing**, Universal hearing screening using transient otoacoustic emissions in a community health clinic, 249
- disturbed sleep**, Disturbed sleep: effects of sociocultural factors and illness, 20
- diurnal variation**, Diurnal variation in children: is stretching the answer? *letter*, 397
- DNA repair disorders**, DNA repair disorders: *review*, 178
- DNA sequencing**, Genetic testing for maturity onset diabetes of the young in childhood hyperglycaemia, 552
- doctorates**, Current means of obtaining a MD degree in the UK: *medical education*, 174
- What's to be done about the malaise in science training in paediatrics and child health? *annotation*, 101
- doubly labelled water**, Estimation of the energy cost of physical activity in infancy, 131
- Down's syndrome**, Cystic fibrosis in Down's syndrome—diagnostic pitfalls and implications for the clinician: *letter*, 194
- drug regimens**, Management of tuberculosis in Wales: 1986-92, 349
- dual x ray absorptiometry**, Whole body bone mineral content in healthy children and adolescents: *letter*, 396
- ductus venosus**, Insertion of umbilical venous catheters past the ductus venosus using the double catheter technique: *letter*, F234
- dysmorphism**, Deficiency of laryngeal collagen type II in an infant with respiratory problems, 557
- dysplasia**, Juvenile polyposis in a tropical country, 264
- echocardiography**, Cardiac effects of short course dexamethasone in preterm infants, F133
- Echocardiography on the neonatal unit: a job for the neonatologist or the cardiologist? *annotation*, 401
- Range of echocardiographic findings in term neonates with high oxygen requirements, F105
- education**, Teaching paediatrics for the developing world: *medical education*, 484
- electroencephalography**, Benign childhood occipital seizures: *annotation*, 3
- Significance of the EEG after the first afebrile seizure: *personal practice*, 575
- EMLA**, Randomised controlled trial of eutectic mixture of local anaesthetics cream for venepuncture in healthy preterm infants, F138
- endothelial nitric oxide synthase**, Effect of dexamethasone on endothelial nitric oxide synthase in experimental congenital diaphragmatic hernia, F204
- energy expenditure**, Estimation of the energy cost of physical activity in infancy, 131
- energy requirements**, Estimation of the energy cost of physical activity in infancy, 131
- enteral feeds**, Reducing bacterial contamination of enteral feeds, 166
- Enterococcus faecium**, Quinupristin/dalfopristin in neonatal *Enterococcus faecium* meningitis: *letter*, F235
- enteroviruses**, Predominant enteroviral serotypes causing meningitis, 373
- eosinophil cationic protein**, Serum eosinophilic cationic protein may predict clinical course of wheezing in young children, 448
- epidemiology**, A case-control study of smoking and sudden infant death syndrome in the Scandinavian countries, 1992 to 1995, 329
- Epidemiology of head injury: *annotation*, 403
- Epidemiology of visual impairment in Britain: *current topic*, 381
- Kawasaki disease in Australia, 1993-95, 33
- epidermolytic toxins**, Staphylococcal scalded skin syndrome: *current topic*, 85
- epilepsy**, Benign childhood occipital seizures: *annotation*, 3
- Do seizures damage the brain? The epidemiological evidence: *current topic*, 78
- Significance of the EEG after the first afebrile seizure: *personal practice*, 575
- epilepsy pathology**, Do seizures damage the brain? The epidemiological evidence: *current topic*, 78
- Epstein-Barr virus**, Mononucleosis syndrome and coincidental human herpesvirus-7 and Epstein-Barr virus infection, 479
- erythroid and granulocyte-macrophage colony formation**, In vitro effect of dexamethasone phosphate on haematopoietic progenitor cells in preterm infants, F67
- erythromycin**, Randomised trial of erythromycin on the development of chronic lung disease in preterm infants, F10
- erythropoietin**, In vitro effect of dexamethasone phosphate on haematopoietic progenitor cells in preterm infants, F67
- Escherichia coli O157**, Advances in haemolytic uraemic syndrome: *review*, 190
- ethics**, Informed consent for randomised controlled trials in neonates: *letter*, F156
- "Can I have a letter for the housing, doctor?": *annotation*, 505
- ethnic minority**, Trends in growth and obesity in ethnic groups in Britain, 513
- ethnic origin**, Influence of ethnic origin on respiratory distress syndrome in very premature infants, F25
- Iron status of Asian children aged 2 years living in England, 420
- Evans' syndrome**, Coombs positive giant cell hepatitis—a new feature of Evans' syndrome: *letter*, 397
- evidence based medicine**, Evidence-based dilemmas in pre-school vision screening: *annotation*, 406
- exercise performance**, Pulmonary function, exercise performance, and growth in survivors of congenital diaphragmatic hernia, 137
- exfoliative toxins**, Staphylococcal scalded skin syndrome: *current topic*, 85
- exocytosis**, Reduced expression of C5a receptors on neutrophils from cord blood, F129
- extremely preterm**, Cerebral blood flow increases over the first three days of life in extremely preterm neonates, F33
- extremely preterm infants**, Increased survival and deteriorating developmental outcome in 23 to 25 week old gestation infants, 1990-4 compared with 1984-9, F99
- F VIII/von Willebrand's factor plasma concentrates**, Management of severe chronic thrombocytopenia in von Willebrand's disease type 2B, 257
- factitious illness by proxy**, Munchausen syndrome by proxy abuse perpetrated by men, 210
- factor V Leiden mutation**, Factor V Leiden and genetic defects of thrombophilia in childhood porencephaly, F121
- failure to thrive**, New chart to evaluate weight faltering, 40
- family breakdown**, Parents, parenting, and family breakdown: *annotation*, 104
- Fanconi's anaemia**, Oesophageal atresia, VACTERL association: Fanconi's anaemia related spectrum of anomalies, 375
- febrile convulsions**, Do seizures damage the brain? The epidemiological evidence: *current topic*, 78
- feminism**, Masculinism disguised as feminism: *personal practice*, 497
- ferritin**, Iron status of Asian children aged 2 years living in England, 420
- fetal acidosis**, Complement and contact activation in term neonates after fetal acidosis, F125
- flow driver continuous positive airway pressure**, Nasal deformities arising from flow driver continuous positive airway pressure: *letter*, F157
- foramen ovale**, Natural history of innocent heart murmurs in newborn babies: controlled echocardiographic study, F166
- fractional oxygen extraction**, Cerebral oxygenation during cardiopulmonary bypass, 26
- Francis Glisson**, Francis Glisson (1597-1677) and the "discovery" of rickets: *perinatal lesson*, F154
- fresh frozen plasma**, Pump up the volume? The routine early use of colloid in very preterm infants: *annotation*, F163
- Friedrich's ataxia**, Diagnosing Friedrich's ataxia: *annotation*, 204
- frontal lobe function**, Randomised controlled trial of tyrosine supplementation on neuropsychological performance in phenylketonuria, 116
- gastric pH monitoring**, Long term gastric pH monitoring for determining optimal dose of ranitidine for critically ill preterm and term neonates, F151
- gastroenteritis**, Serum bicarbonate and dehydration severity in gastroenteritis, 70
- gastrointestinal haemorrhage**, Sigmoidoscopy in minor lower gastrointestinal bleeding, 267
- gastrointestinal symptoms**, Gastrointestinal symptoms in atopic eczema, 230
- gastro-oesophageal reflux**, Gastro-oesophageal reflux in infants under 6 months with cystic fibrosis, 44

- gastroschisis**, Outcome of prenatally diagnosed anterior abdominal wall defects, **F209**
- gene mutations**, Advances in endocrinology: *review*, **278**
- genetic counselling**, Confidential inquiry into families with two siblings with cystic fibrosis: *letter*, **578**
- genetic diagnosis**, Diagnosing Friedreich's ataxia: *annotation*, **204**
- genetic disorders**, A prospective 10 year follow up study of patients with neurofibromatosis type 1, **408**
- genetics**, Clinical presentation and outcome in primary familial hypomagnesaemia, **127**  
Genetic aspects of Charcot-Marie-Tooth disease: *annotation*, **296**  
Growing interest in overgrowth: *annotation*, **200**  
Molecular biology and genetics of allergy and asthma: *current topic*, **488**
- gentamicin**, Urinary N-acetyl- $\beta$ -D-glucosaminidase activity in patients with cystic fibrosis on long term gentamicin inhalation, **540**
- Germany**, Neonatal symptomatic thromboembolism in Germany: *letter*, **F78**
- glucocorticoids**, Effect of dexamethasone on endothelial nitric oxide synthase in experimental congenital diaphragmatic hernia, **F204**
- glycaemic control**, Impact of improved glycaemic control on rates of hypoglycaemia in insulin dependent diabetes mellitus, **111**
- gonadotrophin releasing hormone analogues**, Precocious puberty in girls adopted from developing countries, **152**
- graft-versus-host disease**, Gastrointestinal problems in the immunosuppressed patient: *annotation*, **5**
- group B streptococci**, Impaired phagocytosis and opsonisation towards group B streptococci in preterm neonates, **F46**
- growth**, Maintenance of growth in cystic fibrosis despite reduction in pancreatic enzyme supplementation, **377**  
Pulmonary function, exercise performance, and growth in survivors of congenital diaphragmatic hernia, **137**
- growth hormone**, Advances in endocrinology: *review*, **278**  
Effect of growth hormone on height, weight, and body composition in Prader-Willi syndrome, **474**  
Growth in renal failure: a longitudinal study of emotional and behavioural changes during trials of growth hormone treatment, **222**  
Growth hormone replacement in patients with Langerhan's cell histiocytosis, **469**
- growth suppression**, Duration of growth suppressive effects of regular inhaled corticosteroids, **172**
- Gulliver**, A comparison of ultrasonic and mechanical stadiometry, **269**
- haemolytic disease of the newborn**, Consequences for fetus and neonate of maternal red cell allo-immunisation, **F62**
- haemolytic uraemic syndrome**, Advances in haemolytic uraemic syndrome: *review*, **190**
- head injury**, Epidemiology of head injury: *annotation*, **403**  
Minor head injury: *letter*, **96**
- head lice**, Head lice in schoolchildren: *letter*, **288**
- headache**, Twelve cases of analgesic headache, **555**
- head-up tilting**, Sleep position, autonomic function, and arousal, **F189**
- health**, Health at age 11: reports from schoolchildren and their parents, **427**
- health services**, Adolescent health services: *letter*, **195**
- health technology assessment**, The costs of early hearing screening in England and Wales, **14**
- health visitor distraction test**, The costs of early hearing screening in England and Wales, **14**
- hearing screening**, The costs of early hearing screening in England and Wales, **14**
- heart rate variability**, Sleep position, autonomic function, and arousal, **F189**
- height measurement**, A comparison of ultrasonic and mechanical stadiometry, **269**  
Diurnal variation in children: is stretching the answer?: *letter*, **397**
- height reduction**, Oestrogen treatment of constitutional tall stature: a risk-benefit ratio, **148**
- Henoch-Schönlein purpura**, Soluble thrombomodulin and antibodies to bovine glomerular endothelial cells in patients with Henoch-Schönlein purpura, **240**
- hepatitis B vaccine**, Hyporesponsiveness to intradermal administration of hepatitis B vaccine in insulin dependent diabetes mellitus, **54**
- high altitude**, Reference values for pulse oximetry at high altitude, **461**
- high frequency jet ventilation**, High frequency ventilation and respiratory distress syndrome: do we have an answer?: *annotation*, **F1**
- high frequency oscillation**, Volume delivery during high frequency oscillation, **F148**
- Hirschsprung's disease**, Congenital central hypoventilation syndrome and Hirschsprung's disease, **316**
- hormones**, Stress response and mode of ventilation in preterm infants, **F195**
- hospital admission**, Preventable factors in hospital admissions for asthma, **143**
- housing**, "Can I have a letter for the housing, doctor?": *annotation*, **505**
- human herpesvirus**, Mononucleosis syndrome and coincidental human herpesvirus-7 and Epstein-Barr virus infection, **479**
- human milk**, Human milk IgA concentrations during the first year of lactation, **235**
- hydrocortisone**, Rectal hydrocortisone during stress in patients with adrenal insufficiency, **544**
- hydrops fetalis**, Hydrops fetalis due to ABO incompatibility, **F220**
- hyperglycaemia**, Genetic testing for maturity onset diabetes of the young in childhood hyperglycaemia, **552**
- hyperinsulinaemia**, Intra-arterial calcium stimulation test in the investigation of hyperinsulinaemic hypoglycaemia, **359**
- hyperthyroidism**, Treatment of hyperthyroidism in young people: *annotation*, **207**
- hypocalcaemia**, Clinical presentation and outcome in primary familial hypomagnesaemia, **127**
- hypoglycaemia**, Impact of improved glycaemic control on rates of hypoglycaemia in insulin dependent diabetes mellitus, **111**  
Intra-arterial calcium stimulation test in the investigation of hyperinsulinaemic hypoglycaemia, **359**  
Randomised controlled trial of L-carnitine as a nutritional supplement in preterm infants, **F185**  
Unusual course of neonatal hyperinsulinaemic hypoglycaemia (nesidioblastosis): *letter*, **F156**
- hypomagnesaemia**, Clinical presentation and outcome in primary familial hypomagnesaemia, **127**
- hyponatraemia**, Hyponatraemia in the newborn: *annotation*, **F81**
- hyporesponsiveness**, Hyporesponsiveness to intradermal administration of hepatitis B vaccine in insulin dependent diabetes mellitus, **54**
- hypotension**, Treatment of hypotension in very low birthweight infants: *letter*, **F158**
- hypothermia**, Cerebral oxygenation during cardiopulmonary bypass, **26**  
Hypothermic neural rescue treatment: from laboratory to bedside?: *review*, **F88**  
Treatment of hypoxic-ischaemic brain damage by moderate hypothermia: *review*, **F85**
- hypothyroidism**, How often should we screen for hypothyroidism in girls with Turner's syndrome?: *letter*, **500**
- hypovolaemia**, Central-peripheral temperature difference, blood pressure, and arginine vasopressin in preterm neonates undergoing volume expansion, **F43**
- hypoxic-ischaemic brain damage**, Treatment of hypoxic-ischaemic brain damage by moderate hypothermia: *review*, **F85**
- ibuprofen**, Is ibuprofen a useful treatment for patent ductus arteriosus: *letter*, **F80**
- idiopathic bronchiolitis**, Chronic idiopathic bronchiolitis of infancy: *letter*, **578**
- IgG subclasses**, Mannan binding lectin deficiency and concomitant immunodefects, **245**
- illness**, Health at age 11: reports from schoolchildren and their parents, **427**
- immune suppression**, Gastrointestinal problems in the immunosuppressed patient: *annotation*, **5**
- immunisation**, Randomised controlled trial of sucrose by mouth for the relief of infant crying after immunisation, **453**
- immunodeficiency**, Hereditary CD4+ T lymphocytopenia, **371**  
Mannan binding lectin deficiency and concomitant immunodefects, **245**
- immunoglobulin A**, Human milk IgA concentrations during the first year of lactation, **235**
- immunology**, Polio vaccine: is it time for a change?: *current topic*, **571**
- immunoreactive trypsin**, High serum immunoreactive trypsin not caused by cystic fibrosis: *letter*, **F78**
- infant analgesia**, Randomised controlled trial of sucrose by mouth for the relief of infant crying after immunisation, **453**
- infant breathing model**, Mechanical model testing of rebreathing potential in infant bedding materials, **323**
- infective endarteritis**, Patent arterial duct: when should it be closed?: *personal practice*, **285**
- information**, Development and evaluation of an information booklet for adult survivors of cancer in childhood, **340**
- informed consent**, Informed consent for randomised controlled trials in neonates: *letter*, **F156**
- injury prevention**, Epidemiology of head injury: *annotation*, **403**
- injury surveillance**, Developing injury surveillance in accident and emergency departments: *annotation*, **108**
- innocent heart murmur**, Natural history of innocent heart murmurs in newborn babies: controlled echocardiographic study, **F166**
- inspired oxygen concentration**, Pulmonary artery pressure: early predictor of chronic lung disease in preterm infants, **F20**
- insulin dependent diabetes mellitus**, Development and progression of microalbuminuria in a clinic sample of patients with insulin dependent diabetes mellitus, **518**  
Impact of improved glycaemic control on rates of hypoglycaemia in insulin dependent diabetes mellitus, **111**
- intensive care**, Prolonged mechanical ventilation as a consequence of acute illness, **253**

- intestinal lymphangiectasia**, Intestinal lymphangiectasia and protein losing enteropathy responding to small bowel resection: *letter*, 194
- intra-arterial calcium stimulation**, Intra-arterial calcium stimulation test in the investigation of hyperinsulinaemic hypoglycaemia, 359
- intracranial lesions**, Antenatal onset of haemorrhagic and/or ischaemic lesions in preterm infants: prevalence and associated obstetric variables, F51
- intramucosal pH**, Gastric tonometry in septic shock, 155
- intrathecal antibodies**, Antibodies to varicella zoster virus in the cerebrospinal fluid of neonates with seizures, F57
- ionising radiation**, Ionising radiation from diagnostic x rays in very low birthweight babies, F227
- iron status**, Iron status of Asian children aged 2 years living in England, 420
- isoflurane**, Rapid response to isoflurane in refractory status asthmaticus: *letter*, 395
- isoniazid**, Rifampicin and isoniazid prophylactic chemotherapy for tuberculosis, 169
- juvenile chronic arthritis**, Arthritis as a presenting feature of non-Hodgkin's lymphoma, 367
- juvenile polyposis**, Juvenile polyposis in a tropical country, 264
- Kawasaki disease**, Cardiac sequelae of Kawasaki disease among recurrent cases, 163
- Kawasaki disease**, In Australia, 1993-95, 33
- kidney**, Mitochondrial disorders and the kidney: *current topic*, 387
- kidney function**, Urinary N-acetyl- $\beta$ -D-glucosaminidase activity in patients with cystic fibrosis on long term gentamicin inhalation, 540
- lactate**, Lactate and anion gap in asphyxiated neonates: *letter*, F80
- lactation**, Human milk IgA concentrations during the first year of lactation, 235
- Langerhan's cell histiocytosis**, Growth hormone replacement in patients with Langerhan's cell histiocytosis, 469
- larynx**, Deficiency of laryngeal collagen type II in an infant with respiratory problems, 557
- late effects**, Development and evaluation of an information booklet for adult survivors of cancer in childhood, 340
- learning**, Teaching and learning in a neonatal intensive care unit: *medical education*, 275
- left ventricular hypertrophy**, Cardiac effects of short course dexamethasone in preterm infants, F133
- length and weight**, Very low birthweight boys at the age of 19, F171
- leptin**, Advances in endocrinology: *review*, 278
- licensing of medicines**, Licensing of medicines: *annotation*, 402
- likelihood ratios**, Predicting outcome in very low birthweight infants using an objective measure of illness severity and cranial ultrasound scanning, F175
- lipoprotein (a)**, Factor V Leiden and genetic defects of thrombophilia in childhood porencephaly, F121
- Lucina**, 99, 292, 504
- lung inflammation**, Nitric oxide metabolites in cystic fibrosis lung disease, 49
- lymphadenopathy**, Cat scratch disease in Greece, 64
- lymphoma**, Arthritis as a presenting feature of non-Hodgkin's lymphoma, 367
- lymphoproliferative disease**, Gastrointestinal problems in the immunosuppressed patient: *annotation*, 5
- magnesium**, Modulation by magnesium of N-methyl-D-aspartate receptors in developing human brain, F116
- malnutrition**, Integrated management of childhood infections and malnutrition: *letter*, 288
- mannan binding lectin**, Mannan binding lectin deficiency and concomitant immunodefects, 245
- masculinism**, Masculinism disguised as feminism: *personal practice*, 497
- maturity onset diabetes of the young**, Genetic testing for maturity onset diabetes of the young in childhood hyperglycaemia, 552
- maximum flushing pressure**, Pressures used to flush central venous catheters: *letter*, F234
- measurement technique**, Diurnal variation in children: is stretching the answer?: *letter*, 397
- mechanical ventilation**, Randomised controlled trial of respiratory system compliance measurements in mechanically ventilated neonates, F15
- medical education**, A countrywide programme of continuing professional development in Argentina: *medical education*, 562
- meningitis**, Quinupristin/dalfopristin in neonatal *Enterococcus faecium* meningitis: *letter*, F235
- meningococcal disease**, Preliminary clinical evaluation of meningococcal disease and bacterial meningitis by ultrasonic enhancement, 58
- mental development**, Very low birthweight boys at the age of 19, F171
- mental health**, Social adversities and anxiety disorders in the Gaza Strip, 439
- metabolic disorder**, Abuse or metabolic disorder?: *letter*, 399
- methaemoglobin**, Randomised controlled trial of eutectic mixture of local anaesthetics cream for venepuncture in healthy preterm infants, F138
- methylmalonic acidemia**, Neurological outcome of methylmalonic acidemia, 508
- microalbuminuria**, Development and progression of microalbuminuria in a clinic sample of patients with insulin dependent diabetes mellitus, 518
- migraine**, Twelve cases of analgesic headache, 555
- mitochondrial disorders**, Mitochondrial disorders and the kidney: *current topic*, 387
- molecular biology**, Molecular biology and genetics of allergy and asthma: *current topic*, 488
- molecular diagnosis**, Molecular diagnosis of spinal muscular atrophy, 531
- mononucleosis**, Mononucleosis syndrome and coincidental human herpesvirus-7 and Epstein-Barr virus infection, 479
- mortality**, Mortality and diabetes from a population based register in Yorkshire 1978-93, 435
- Munchausen syndrome by proxy**, Munchausen syndrome by proxy abuse perpetrated by men, 210
- Munchausen syndrome by proxy**, Procedures, placement, and risks of further abuse after Munchausen syndrome by proxy, non-accidental poisoning, and non-accidental suffocation, 217
- muscle strength**, Determinants of axial and peripheral bone mass in Chinese adolescents, 524
- mutation**, Genetic testing for maturity onset diabetes of the young in childhood hyperglycaemia, 552
- Mycoplasma pneumoniae**, Analysis of mycoplasmal pleural effusion by the polymerase chain reaction, 67
- N-acetyl- $\beta$ -D-glucosaminidase**, Urinary N-acetyl- $\beta$ -D-glucosaminidase activity in patients with cystic fibrosis on long term gentamicin inhalation, 540
- nasal deformities**, Nasal deformities arising from flow driver continuous positive airway pressure: *letter*, F157
- Nasal deformities**, Nasal deformities at a UK hospital: *letter*, F158
- nutritional status**, Relation between dietary intake and nutritional status in cystic fibrosis, 443
- near infrared spectroscopy**, Cerebral blood flow increases over the first three days of life in extremely preterm neonates, F33
- Cerebral oxygenation**, Cerebral oxygenation during cardiopulmonary bypass, 26
- nebuliser**, Nebulisation of surfactants in an animal model of neonatal respiratory distress, F3
- neonatal intensive care unit**, Teaching and learning in a neonatal intensive care unit: *medical education*, 275
- neonatal origins**, Neonatal origins of schizophrenia: *annotation*, 1
- neonatal screening**, The costs of early hearing screening in England and Wales, 14
- neonatal units**, Echocardiography on the neonatal unit: a job for the neonatologist or the cardiologist?: *annotation*, 401
- nephritis**, Soluble thrombomodulin and antibodies to bovine glomerular endothelial cells in patients with Henoch-Schönlein purpura, 240
- nesidioblastosis**, Unusual course of neonatal hyperinsulinaemic hypoglycaemia (nesidioblastosis): *letter*, F156
- neural rescue treatment**, Hypothermic neural rescue treatment: from laboratory to bedside: *review*, F88
- Neural rescue treatment**, Treatment of hypoxic-ischaemic brain damage by moderate hypothermia: *review*, F85
- neural tube defects**, 677 $\rightarrow$ CT mutation on the methylenetetrahydrofolate reductase gene is not a risk factor for neural tube defects in Turkey: *letter*, F235
- Neural tube defects**, Neural tube defects and zinc: *letter*, 288
- neurocardiac reflex**, Neurocardiogenic syncope: a model for SIDS, 481
- neurocrisopathy**, Congenital central hypoventilation syndrome and Hirschsprung's disease, 316
- neurodevelopmental disability**, Increased survival and deteriorating developmental outcome in 23 to 25 week old gestation infants, 1990-4 compared with 1984-9, F99
- neurodevelopmental outcome**, Neonatal seizures: *current topic*, F70
- neurofibromatosis type 1**, A prospective 10 year follow up study of patients with neurofibromatosis type 1, 408
- neuronal apoptosis inhibitory protein gene**, Molecular diagnosis of spinal muscular atrophy, 531
- neutrophils**, Reduced expression of C5a receptors on neutrophils from cord blood, F129
- Neutrophils**, Soluble L-selectin concentration in bronchoalveolar lavage fluid obtained from infants who develop chronic lung disease of prematurity, F143
- nitrate**, Nitric oxide metabolites in cystic fibrosis lung disease, 49
- nitric oxide**, Nitric oxide metabolites in cystic fibrosis lung disease, 49
- nitrofen**, Effect of dexamethasone on endothelial nitric oxide synthase in experimental congenital diaphragmatic hernia, F204
- NMDA receptor**, Modulation by magnesium of N-methyl-D-aspartate receptors in developing human brain, F116
- non-accidental poisoning**, Munchausen syndrome by proxy abuse perpetrated by men, 210
- nutritional supplements**, Randomised controlled trial of L-carnitine as a nutritional supplement in preterm infants, F185

- obesity**, Socioeconomic status and changes in body mass from 3 to 5 years, 477
- occipital seizures**, Benign childhood occipital seizures: *annotation*, 3
- oesophageal atresia**, Oesophageal atresia, VACTERL association: Fanconi's anaemia related spectrum of anomalies, 375
- oestrogen treatment**, Oestrogen treatment of constitutional tall stature: a risk-benefit ratio, 148
- omphaloceles**, Outcome of prenatally diagnosed anterior abdominal wall defects, F209
- oncology**, Dental health in children with cancer, 560
- on-line monitoring**, Randomised controlled trial of respiratory system compliance measurements in mechanically ventilated neonates, F15
- opsonisation**, Impaired phagocytosis and opsonisation towards group B streptococci in preterm neonates, F46  
Mannan binding lectin deficiency and concomitant immunodefects, 245
- oro-tracheal intubation**, Deformation of the palate in preterm infants, F29
- oscillators**, High frequency ventilation and respiratory distress syndrome: do we have an answer?: *annotation*, F1
- oscillometric blood pressure**, Use of pulse oximetry for blood pressure measurement after cardiac surgery, 457
- outcome**, Prolonged mechanical ventilation as a consequence of acute illness, 253
- overgrowth syndromes**, Growing interest in overgrowth: *annotation*, 200
- oxygen saturation**, Reference values for pulse oximetry at high altitude, 461
- paediatric MRCP (UK) part II**, How to organise the paediatric MRCP (UK) part II clinical examination: *letter*, 195
- palate**, Deformation of the palate in preterm infants, F29
- pancreatic enzyme dosage**, Maintenance of growth in cystic fibrosis despite reduction in pancreatic enzyme supplementation, 377
- paracetamol**, Twelve cases of analgesic headache, 555
- parenting**, Good enough parenting for all children—a strategy for a healthier society: *annotation*, 293  
Parents, parenting, and family breakdown: *annotation*, 104
- parents**, Health at age 11: reports from schoolchildren and their parents, 427  
Parents, parenting, and family breakdown: *annotation*, 104
- patent arterial duct**, Patent arterial duct: when should it be closed?: *personal practice*, 285
- patent ductus arteriosus**, Is ibuprofen a useful treatment for patent ductus arteriosus: *letter*, F80
- patient management**, Management of tuberculosis in Wales: 1986–92, 349
- peripheral perfusion**, Pump up the volume? The routine early use of colloid in very preterm infants: *annotation*, F163
- periventricular white matter**, Antenatal onset of haemorrhagic and/or ischaemic lesions in preterm infants: prevalence and associated obstetric variables, F51
- persistence of immunity**, Persistence of protective immunity after postexposure prophylaxis of varicella with oral aciclovir in the family setting, 61
- pestivirus**, Is some white matter damage in preterm neonates induced by a human pestivirus?: *hypothesis*, F230
- phagocytosis**, Impaired phagocytosis and opsonisation towards group B streptococci in preterm neonates, F46
- phenylalanine**, Does a single plasma phenylalanine predict quality of control in phenylketonuria?, 122  
Randomised controlled trial of tyrosine supplementation on neuropsychological performance in phenylketonuria, 116
- phenylketonuria**, Does a single plasma phenylalanine predict quality of control in phenylketonuria?, 122  
Randomised controlled trial of tyrosine supplementation on neuropsychological performance in phenylketonuria, 116
- physical activity**, Determinants of axial and peripheral bone mass in Chinese adolescents, 524
- "infantile tremor syndrome"**, Persistence of neurological damage induced by dietary vitamin B-12 deficiency: *letter*, 398
- pituitary gland**, Growth hormone replacement in patients with Langerhan's cell histiocytosis, 469
- plasma arginine vasopressin**, Central-peripheral temperature difference, blood pressure, and arginine vasopressin in preterm neonates undergoing volume expansion, F43
- plasma carnitine**, Randomised controlled trial of L-carnitine as a nutritional supplement in preterm infants, F185
- plasma phenylalanine**, Does a single plasma phenylalanine predict quality of control in phenylketonuria?, 122
- pleural effusion**, Analysis of mycoplasma pleural effusion by the polymerase chain reaction, 67
- poisoning**, Procedures, placement, and risks of further abuse after Munchausen syndrome by proxy, non-accidental poisoning, and non-accidental suffocation, 217
- polio vaccine**, Polio vaccine: is it time for a change?: *current topic*, 571
- polymerase chain reaction**, Analysis of mycoplasma pleural effusion by the polymerase chain reaction, 67
- porencephaly**, Factor V Leiden and genetic defects of thrombophilia in childhood porencephaly, F121
- positive predictive values**, Predicting outcome in very low birthweight infants using an objective measure of illness severity and cranial ultrasound scanning, F175
- postexposure prophylaxis**, Persistence of protective immunity after postexposure prophylaxis of varicella with oral aciclovir in the family setting, 61
- postgraduate education**, A new college, a new direction in academic paediatrics?: *letter*, 399  
Current means of obtaining a MD degree in the UK: *medical education*, 174  
What's to be done about the malaise in science training in paediatrics and child health?: *annotation*, 101
- Prader-Willi syndrome**, Effect of growth hormone on height, weight, and body composition in Prader-Willi syndrome, 474
- precocious puberty**, Precocious puberty in girls adopted from developing countries, 152
- pregnancy**, A case-control study of smoking and sudden infant death syndrome in the Scandinavian countries, 1992 to 1995, 329  
Alcohol, pregnancy and the Holy Bible: *letter*, F158  
Consequences for fetus and neonate of maternal red cell allo-immunisation, F62  
Heavy caffeine intake in pregnancy and sudden infant death syndrome, 9
- prematurity**, Antioxidant activity, packed cell transfusions, and outcome in premature infants, F214  
Influence of ethnic origin on respiratory distress syndrome in very premature infants, F25  
Predicting outcome in very low birthweight infants using an objective measure of illness severity and cranial ultrasound scanning, F175  
Volume delivery during high frequency oscillation, F148
- preterm infant**, Enteral yeast-selenium supplementation in preterm infants, F225
- primitive neuroectodermal tumour**, Congenital primitive neuroectodermal tumour presenting as obstructed labour, F222
- programming**, Advances in endocrinology: *review*, 278
- prone position**, Sleep position, autonomic function, and arousal, F189
- prospective multicentre studies**, Limited comparability of classifications of levels of neonatal care in UK units, F179
- protective effects**, Car restraints and seating position for prevention of motor vehicle injuries in Greece, 335
- protein C**, Factor V Leiden and genetic defects of thrombophilia in childhood porencephaly, F121
- protein losing enteropathy**, Intestinal lymphangiectasia and protein losing enteropathy responding to small bowel resection: *letter*, 194
- Pseudomonas aeruginosa**, Efficacy, tolerance, and pharmacokinetics of once daily tobramycin for pseudomonas exacerbations in cystic fibrosis, 536
- psychological development**, Psychological development of prematurely born children: *current topic*, 567
- psychological function**, Sleep and psychological disturbance in nocturnal asthma, 413
- psychological problems**, Growth in renal failure: a longitudinal study of emotional and behavioural changes during trials of growth hormone treatment, 222
- puberty**, Oral testosterone undecanoate for the induction of puberty in anorchid boys: *letter*, 397
- puerperal fever**, Dr Alexander Gordon (1752–99) and contagious puerperal fever: *perinatal lesson*, F232
- pulmonary artery pressure**, Pulmonary artery pressure: early predictor of chronic lung disease in preterm infants, F20
- pulmonary branch stenosis**, Natural history of innocent heart murmurs in newborn babies: controlled echocardiographic study, F166
- pulmonary function testing**, Randomised controlled trial of respiratory system compliance measurements in mechanically ventilated neonates, F15
- pulmonary hypertension**, Range of echocardiographic findings in term neonates with high oxygen requirements, F105
- pulmonary interstitial emphysema**, Prediction of individual response to postnatal dexamethasone in ventilator dependent preterm infants, F199
- pulse oximetry**, Reference values for pulse oximetry at high altitude, 461  
Use of pulse oximetry for blood pressure measurement after cardiac surgery, 457
- questionnaires**, Agreement on responses to respiratory illnesses questionnaire, 379
- rabbits**, Nebulisation of surfactants in an animal model of neonatal respiratory distress, F3
- radiographs**, Ionising radiation from diagnostic x rays in very low birthweight babies, F227
- radioiodine**, Treatment of hyperthyroidism in young people: *annotation*, 207
- ranitidine**, Long term gastric pH monitoring for determining optimal dose of ranitidine for critically ill preterm and term neonates, F151
- rebreathing**, Mechanical model testing of rebreathing potential in infant bedding materials, 323

- recombinant hepatitis B vaccine**, Thrombocytopenic purpura as adverse reaction to recombinant hepatitis B vaccine, 273
- rectal bleeding**, Sigmoidoscopy in minor lower gastrointestinal bleeding, 267
- red cell antibodies**, Consequences for fetus and neonate of maternal red cell allo-immunisation, F62
- reference values**, Reference values for pulse oximetry at high altitude, 461
- register**, Survey of UK computerised special needs registers, 312
- regression to the mean**, New chart to evaluate weight faltering, 40
- regulation**, Molecular basis of virulence: *annotation*, 197
- renal scarring**, Serum vitamin A and  $\beta$ -carotene concentrations and renal scarring in urinary tract infections, 271
- respiratory distress syndrome**, High concentrations of GRO- $\alpha$  and MCP-1 in bronchoalveolar fluid of infants with respiratory distress syndrome after surfactant: *letter*, F234
- High frequency ventilation and respiratory distress syndrome: do we have an answer?: *annotation*, F1
- Influence of ethnic origin on respiratory distress syndrome in very premature infants, F25
- Nebulisation of surfactants in an animal model of neonatal respiratory distress, F3
- Timing of surfactant treatment: *letter*, F157
- respiratory illness**, Agreement on responses to respiratory illnesses questionnaire, 379
- respiratory system compliance**, Randomised controlled trial of respiratory system compliance measurements in mechanically ventilated neonates, F15
- resuscitation**, Outcome of resuscitation following unexpected apparent stillbirth, F112
- rhesus disease**, Anti-D prophylaxis in 1997: The Edinburgh Consensus Statement: *annotation*, F161
- rickets**, Francis Glisson (1597-1677) and the "discovery" of rickets: *perinatal lesson*, F154
- rifampicin**, Rifampicin and isoniazid prophylactic chemotherapy for tuberculosis, 169
- right to left shunt**, Range of echocardiographic findings in term neonates with high oxygen requirements, F105
- road traffic accidents**, Car restraints and seating position for prevention of motor vehicle injuries in Greece, 335
- Epidemiology of head injury: *annotation*, 403
- schizophrenia**, Neonatal origins of schizophrenia: *annotation*, 1
- schoolchildren**, Health at age 11: reports from schoolchildren and their parents, 427
- science training**, What's to be done about the malaise in science training in paediatrics and child health?: *annotation*, 101
- screening**, A survey of paediatricians' practice and training in routine infant eye examination, 364
- Confidential inquiry into families with two siblings with cystic fibrosis: *letter*, 578
- Development and progression of microalbuminuria in a clinic sample of patients with insulin dependent diabetes mellitus, 518
- Systematic review of the school entry medical examination, 301
- SD scores**, The need for revised standards for skinfold thickness in infancy, 354
- seating positions**, Car restraints and seating position for prevention of motor vehicle injuries in Greece, 335
- sedation**, Sedation for invasive procedures in paediatrics: *letter*, 501
- seizures**, Neonatal seizures: *current topic*, F70
- selective school entry medical examination**, Systematic review of the school entry medical examination, 301
- selenium**, Enteral yeast-selenium supplementation in preterm infants, F225
- self report**, Health at age 11: reports from schoolchildren and their parents, 427
- sepsis**, Diagnostic tests for bacterial infection from birth to 90 days—a systematic review, F92
- septic shock**, Gastric tonometry in septic shock, 155
- serum bicarbonate**, Serum bicarbonate and dehydration severity in gastroenteritis, 70
- severity of illness index**, Predicting outcome in very low birthweight infants using an objective measure of illness severity and cranial ultrasound scanning, F175
- short stature**, Growth in renal failure: a longitudinal study of emotional and behavioural changes during trials of growth hormone treatment, 222
- sigmoidoscopy**, Sigmoidoscopy in minor lower gastrointestinal bleeding, 267
- skinfolds**, The need for revised standards for skinfold thickness in infancy, 354
- sleep**, Sleep and psychological disturbance in nocturnal asthma, 413
- small bowel resection**, Intestinal lymphangiectasia and protein losing enteropathy responding to small bowel resection: *letter*, 194
- smoking**, A case-control study of smoking and sudden infant death syndrome in the Scandinavian countries, 1992 to 1995, 329
- smothering/suffocation**, Munchausen syndrome by proxy abuse perpetrated by men, 210
- social factors in sleep disturbance**, Disturbed sleep: effects of sociocultural factors and illness, 20
- socioeconomic status**, Socioeconomic status and changes in body mass from 3 to 5 years, 477
- sodium balance**, Hyponatraemia in the newborn: *annotation*, F81
- special needs**, Survey of UK computerised special needs registers, 312
- spinal muscular atrophy**, Molecular diagnosis of spinal muscular atrophy, 531
- spirometry**, Pulmonary function, exercise performance, and growth in survivors of congenital diaphragmatic hernia, 137
- stadiometry**, A comparison of ultrasonic and mechanical stadiometry, 269
- standards**, The need for revised standards for skinfold thickness in infancy, 354
- staphylococcal scalded skin syndrome**, Staphylococcal scalded skin syndrome: *current topic*, 85
- stature**, Trends in growth and obesity in ethnic groups in Britain, 513
- status asthmaticus**, Rapid response to isoflurane in refractory status asthmaticus: *letter*, 395
- stillbirths**, Outcome of resuscitation following unexpected apparent stillbirth, F112
- stress response**, Stress response and mode of ventilation in preterm infants, F195
- sucrose**, Randomised controlled trial of sucrose by mouth for the relief of infant crying after immunisation, 453
- sudden infant death syndrome**, A case-control study of smoking and sudden infant death syndrome in the Scandinavian countries, 1992 to 1995, 329
- Heavy caffeine intake in pregnancy and sudden infant death syndrome, 9
- Mechanical model testing of rebreathing potential in infant bedding materials, 323
- Neurocardiogenic syncope: a model for SIDS, 481
- suffocation**, Procedures, placement, and risks of further abuse after Munchausen syndrome by proxy, non-accidental poisoning, and non-accidental suffocation, 217
- supine position**, Sleep position, autonomic function, and arousal, F189
- supplementation**, Enteral yeast-selenium supplementation in preterm infants, F225
- suppository**, Rectal hydrocortisone during stress in patients with adrenal insufficiency, 544
- suprapubic puncture**, Randomised trial of suprapubic puncture versus urethral catheterisation for cystography: *letter*, 95
- supraventricular tachycardia**, Tuberous sclerosis complex and Wolff-Parkinson-White syndrome, 159
- surface anaesthesia**, Randomised controlled trial of eutectic mixture of local anaesthetics cream for venepuncture in healthy preterm infants, F138
- surfactant**, High concentrations of GRO- $\alpha$  and MCP-1 in bronchoalveolar fluid of infants with respiratory distress syndrome after surfactant: *letter*, F234
- Nebulisation of surfactants in an animal model of neonatal respiratory distress, F3
- Timing of surfactant treatment: *letter*, F157
- surveillance**, A survey of paediatricians' practice and training in routine infant eye examination, 364
- survival**, Increased survival and deteriorating developmental outcome in 23 to 25 week old gestation infants, 1990-4 compared with 1984-9, F99
- survival motor neurone gene**, Molecular diagnosis of spinal muscular atrophy, 531
- systematic review**, Systematic review of the school entry medical examination, 301
- systolic blood pressure**, Central-peripheral temperature difference, blood pressure, and arginine vasopressin in preterm neonates undergoing volume expansion, F43
- Does positive pressure ventilation increase arginine vasopressin in preterm neonates?, F38
- tall stature**, Oestrogen treatment of constitutional tall stature: a risk-benefit ratio, 148
- teaching**, Teaching and learning in a neonatal intensive care unit: *medical education*, 275
- technetium-99m DMSA**, Serum vitamin A and  $\beta$ -carotene concentrations and renal scarring in urinary tract infections, 271
- teenagers**, Health at age 11: reports from schoolchildren and their parents, 427
- testosterone undecanoate**, Oral testosterone undecanoate for the induction of puberty in anorchid boys: *letter*, 397
- tetany**, Clinical presentation and outcome in primary familial hypomagnesaemia, 127
- Thomas Malthus**, Thomas Malthus (1766-1834): population growth and birth control: *perinatal lesson*, F76
- tracheobronchomalacia flexible bronchoscopy**, Tracheobronchomalacia in preterm infants: *letter*, F159
- thrombocytopenic purpura**, Thrombocytopenic purpura as adverse reaction to recombinant hepatitis B vaccine, 273
- thromboembolism**, Neonatal symptomatic thromboembolism in Germany: *letter*, F78

- thrombomodulin**, Soluble thrombomodulin and antibodies to bovine glomerular endothelial cells in patients with Henoch-Schönlein purpura, 240
- thyroidectomy**, Treatment of hyperthyroidism in young people: *annotation*, 207
- thyroxine**, Treatment of hyperthyroidism in young people: *annotation*, 207
- tonometry**, Gastric tonometry in septic shock, 155
- total body water**, Estimating total body water in neonates: *letter*, F159
- total colonic aganglionosis**, Congenital central hypoventilation syndrome and Hirschsprung's disease, 316
- transcatheter occlusion**, Patent arterial duct: when should it be closed?: *personal practice*, 285
- transient otoacoustic emissions**, Universal hearing screening using transient otoacoustic emissions in a community health clinic, 249
- trauma**, Epidemiology of head injury: *annotation*, 403
- treatment recommendations**, Management of tuberculosis in Wales: 1986-92, 349
